Repair Order

Please include a copy of the completed and signed repair order in the package.

1. Customer data

Company: _____
Name: _____
Street: _____
Country / zip / town: _____
Phone-number: _____
E-Mail*: _____

* The invoice will be send by email. The package will be shipped back after receiving the payment.

Shipping address, if different:

Company / name: _____
Street: _____
Country / zip / town: _____

2. Packaging list**

**we accept no liability for the loss of items not listed. To avoid transport damage, never use air cushions or styrofoam chips. The heavy vanos must be packed in a sturdy box so that it cannot slip.

Count	Part
	Vanos S50B30 (E36 M3 3,0l)
	Vanos S50B32 (E36+Z3 M3 3,2l)
	Vanos S54B32 (E46+Z4 M3 3,2l)
	Vanos S62B50 (E39 M5+Z8)
	splined shaft(z.B. 1x S50B30; 2x S50+S54B32; 4x S62)

I commission Probsten-Tech to deliver splined shafts free of play in exchange against possible rattle resonance. (Please tick if desired. Prices for play-free splined shafts are listed on our price list.)

I hereby commission Probsten-Tech to check and revise the parts sent in under the following conditions: In addition to the basic price stated in the Probsten-Tech online shop, defective parts may incur additional costs after prior consultation. If, after the parts have been checked by Probsten-Tech, repairing the vanos is not economically viable, the costs listed in the price list for checking the solenoid valves apply (40 euros/solenoid valve, e.g. 2x for S50B30 and 4x for S50B32 and 8x for S62). We repair exclusively according to our general terms and conditions (available at probsten-tech.de). With your signature you confirm that you have read and accepted the terms and conditions.

After installation and after each 50km and 100km running-in period of the revised vanos, the tightness of the component, the cylinder head cover and the oil connection must be checked.

Date:..... Signature:.....
